### **Redusere antall seminarganger ECON5300 - Advanced Macroeconomic Theory**

The way the course is organized right now is by 6 topics, each covered in two weeks (+ introduction at the beginning of the semester).

Having one seminar per topic seems ideal. In particular since we expect (check whether) students to prepare, requiring that they have attended both lectures on a topic before they get the corresponding problem set. And two weeks instead of one week for preparation seems more appropriate.

#### **Forslag til vedtak**

Programrådet vedtar å redusere fra 8 - 6 seminarganger i ECON5300 fra og med høsten 2023.
