

## **Kort redegjørelse for emnebeskrivelse og pensum SOS2920**

SOS2920

Basically, we have tried to change priorities a bit and have made some fairly deep transformations. We will centre more in class on the technical or methodological side to make sure that the students familiarise themselves with the tools. We will then let it be (more) up to the students to seek out theory to make everything exciting. Also due to problems with access to Facebook, we have replaced a Facebook class with a reddit one.
