Vedlegg: Kunngjøringstekst

The University of Oslo is Norway's largest institution of research and education with 28 000 students and 7000 employees. Its broad range of academic disciplines and internationally esteemed research communities make UiO an important contributor to society.

The Department of Sociology and Human Geography is Norway's leading department for both Sociology and Human Geography. Research, teaching and dissemination activities within both fields are of the highest level. The Department is renowned both for the breadth of topics and methodologies employed and for its highly qualified researchers. Gender balance among the academic staff is an important distinguishing feature. The Department has 30 permanent academic staff, more than 30 research fellows and post docs and 15 administrative staff members. There are approximately 80 PhD. candidates and 1500 students enrolled in the Department.

Faculty of Social Sciences, Department of Sociology and Human Geography

Postdoctoral Fellow in Human Geography

Job Description

There is a vacant position at the Department of Sociology and Human Geography for a Postdoctoral Fellow (SKO1352) in Human Geography. The position is for a period of up to 4 years with 25 % compulsory work (primarily teaching at the Department). Employment in this position requires that you complete a course in university pedagogics (or gain the equivalent competence) within two years of your start date.

The position forms part of the project 'Smart Mobility Suburbs' (SMS), funded by the Research Council of Norway. The project is in cooperation with several institutions, and the postdoctoral fellow will be a member of a research group led by Professor Per Gunnar Røe at the Department of Sociology and Human Geography. More information about the project is found here: [LENKE KOMMER](#)

Desired qualifications and personal skills

Applicants must hold a PhD in Human Geography. When evaluating the application, emphasis will be placed on the applicant's academic and personal competence to carry out the project. Applicants must also have the capacity for independent academic work at a high level, preferably documented through publications in international journals. Experience with the use of statistical methods and different types of quantitative data, including register data, is required. Moreover, applicants must have a good basis in theories on urban mobilities and/or urban geography. In assessing applications, particular emphasis will be placed upon the academic and personal suitability of the candidate to contribute to the project within the given timeframe. Interviews will be held with potential candidates.

Applicants must have excellent written and oral proficiency in English and preferably also in Norwegian (or other Scandinavian language).

We offer

- Pay grade 57 - 64 (NOK XXX -XXX), depending on level of competence
- Academically stimulating working environment
- Focus on working conditions for academic staff and researchers
- Good pension benefits under the Norwegian Public Service Pension Fund scheme
- [Good welfare benefits](#)

The electronic application should include

- Application letter
- A project proposal (5-10 pages) which must include the topic, relevant theory and methods and time-line. Applicants are expected to be able to complete the project during the appointment period. The proposal should reflect the aims of "Smart Mobility Suburbs" as described in WP1: Energy-smart mobility practices in suburbs (LENKE KOMMER)
- CV (summarizing education, positions, pedagogical experience, administrative experience and other qualifying activity)
- A complete list of publications
- Academic transcripts (university degrees only)

The letter of application and all supporting documents must be in either English, Norwegian or another Scandinavian language.

A sorting committee will be appointed if there are many applicants for the position.

Actual academic works should not be included at this time. After the sorting committee has completed the first stage of the review process, an expert committee will invite the most appropriate candidates to submit up to five academic works that the applicant wishes to have considered in the assessment process (a doctoral dissertation or a monograph will count as three publications).

Please also refer to the [Guidelines concerning appointment to post doctoral and research posts at UiO](#).

According to Section 25 of the Norwegian Freedom of Information Act, information about the applicant can be published even when the applicant has requested not to be included in the public list of applicants.

The University of Oslo has an Acquisition of Rights Agreement for all employees for the purpose of securing [intellectual property rights to research results](#) etc.

The University of Oslo aims to achieve a balanced gender composition in the workforce and to recruit people with ethnic minority backgrounds.
