

Course report stv4214B Spring 2022

16 students completed the course. In the final lecture, all attending students filled in a simple evaluation form. The course convenors read the forms leaving them to the course liaison. In the evaluation meeting on Zoom, the course liaison reported that the students were generally pleased with the course, including lectures, slides, quizzes, access to previous exams, and an example of a term paper. One student pointed out a few inconsistencies between the curriculum and the reading lists for each lecture.
