Disagree	1	6,7 %	
Strongly disagree	0	0 %	

Is there anything else that you would have wanted information on?

- More on the varieties and options available for the PhD students.
- A list of whom to contact in case of problems. What is faculty matters and what is the institute's responsibility when encountering problems. It was also nice to hear about the events that Are relevant for phd-students

Other comments (e.g. on practical issues or suggestions for future courses)

- It is THE chance to help people get in touch. Don't be afraid of silly games. Make people move around in the room and talk to each other!
- It worked well
- The two-hour lecture largely summed up information that is readily available on the university's homepage. I guess it serves a purpose in terms of building social identity as a PhD fellow belonging to the social sciences, but I don't think this warrants the compulsivity.
