The term paper must:

- be between 3500-5000 words.
- be on a topic related to the curriculum but selected by the student.
- meet the formal requirements for submission of written assignments

New examination suggested by Elin (after dialogue with Guri, who later will take over the 'emneansvar')

Term paper

The term paper shall be

- A literature review
- Between 3500-5000 words.
- On a topic related to the curriculum but selected by the student.
- Meet the formal requirements for submission of written assignments

Obligatory activity

- Submission of a draft literature review midway
- Participation in the midway seminar where the drafts are discussed

Reason for the change

The students need to learn how to write literature reviews and then it is best to fully focus on this in this course. If they get more time to develop this skill, they will also write better reviews. This is a very good skill to have when they shall write their masters. This new examination will also lessen the burden of the lecturers, as they only must grade one product instead of two.
